

dyson supersonic

Fast drying. No extreme heat.
Engineered for different hair types.

Key features

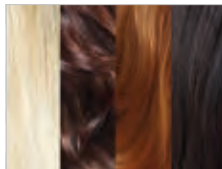

Fast drying

Thanks to the powerful Dyson digital motor V9 and Air Multiplier™ technology.

No extreme heat

Intelligent heat control measures the air temperature over 40 times a second, to prevent extreme heat damage.

Engineered for different hair types

Now featuring new styling attachments engineered to style different types of hair.

Acoustically tuned

The powerful motor is tuned to produce one inaudible frequency.

Engineered for balance

The 27mm motor is positioned in the handle, for balance in the hand.

2

2-year guarantee

On labour and parts.
