TECHNICAL SPECIFICATION

Cu-Beam™ suspended lights provide powerful light, precisely where you need it. Heat pipe technology creates a highly effective cooling system, meaning each light uses a single high-power, high-efficiency chip on board LED. This single light source, combined with a custom-designed lens, delivers optically efficient, precisely controlled illumination.
The cooling system also prolongs the life of the LED, ensuring long-lasting brightness. The luminaire is supplied with a customised driver, with additional heat sinks and high-grade-capacitors.
To specify, state:
Sleek suspended luminaire with two high efficiency chip on board LEDs CRI 80min 2 step binning – cooled via sintered copper heat pipes. Custom-engineered rectangular and toroidal optics with adjustable trim shutters for optimum framing and glare control. Full flexible control of upward and downward light with the ability to split and dim the light via addressable dimming solutions.

Installation

Pendant system complete with power supply driver
and suspension cable (L = 4000mm maximum)

Mounting: Ceiling pendant. Driver recessed or surface mounted.

Environment: IP rating 20. Indoor use only

Operating temperature range: °0C - °40C

Electrical

Input voltage / Frequency: 240-100V, 60/50Hz

Control signal voltage: 16-0 V

Rated power: 83W

Standby power consumption: 0.5W

Driver included: Yes

Embedded control: No

Dimmable: DALI, PWM, 10-0V, 10-1V

Minimum dim level: %10

Suitable for random switching: Yes
(Switching related to presence and daylight harvesting)

Wiring: Product complete with electronic components

Factory pre-set light split ratio: %50 down-light / %50 up-light

Optical

Light source: Chip on board LEDs

Number of light sources: 2

Light source replaceable: No

3000K Fixture light output: 8875 lm

4000K Fixture light output: 9400 lm

3000K Luminous efficacy: 107 lm/W

4000K Luminous efficacy: 113 lm/W

3000K Fixture illuminance: 673 lux across 1600mm x 3200mm
surface when mounted 1300mm from task surface. Based on
%50 down-light and %50 up-light split ratio.

4000K Fixture illuminance: 722 lux across 1600mm x 3200mm
surface when mounted 1300mm from task surface. Based on
%50 down-light and %50 up-light split ratio.

Colour temperature: 3000K / 4000K
(custom option on request)

CRI: 80 minimum

LED binning: 2 step (ANSI)

Construction

Housing materials:
Aluminium / Copper / Polycarbonate /Polyarylamide

Optical lens materials: PMMA (Acrylic)

Polar plot (4000K fixture)

cd

٩٤٠٨ lm

— C٠ - C١٨٠   — C٩٠ - C٢٧٠
Operation

DALI, PWM, 10-0V, 10-1V

Power Supply Driver:
Not suitable for use with external mains dimmers

Logistics

Net (fixture) weight: 3.24kg

Packaged weight: 5.84kg

Packaged dimensions:

203 mm

828 mm

226 mm

Standard guarantee

5 years (parts only)
