

Senses, Captures, Projects

Key features

Senses

Automatically detects airborne particles and gases then diagnoses and reports them in real time.

Captures

Activated carbon filters remove gases. Sealed HEPA filters capture 99.95% of ultrafine particles such as allergens and pollutants.¹

Projects

The only one with Air Multiplier™ technology and 350° oscillation to project air around the whole room.²

Real data, real time

Detects and reports using the Dyson Link app.³

Purifying fan in summer

Purifies and cools in summer with Air Multiplier™ technology.

Purifying without cooling you in winter

With Diffused mode, it purifies without the draught.

White/Silver Iron/Blue Black/Nickel

Certified asthma & allergy friendly™ by Allergy Standards Limited. The CERTIFIED ASTHMA & ALLERGY FRIENDLY mark is a registered certification mark of the ASTHMA AND ALLERGY FOUNDATION OF AMERICA and ALLERGY STANDARDS LTD.

Quiet Mark is a registered trademark of the Noise Abatement Society.
