

dyson purifier cool

Purifies

Cools you

Fully-sealed to HEPA H13 standard.¹

Removes 99.97% of particles as small as 0.3 microns.

Proven to capture H1N1 influenza virus.²

Fully-sealed to HEPA 13 standard¹

Fully-sealed airflow and filtration system-captures 99.97% of allergens and pollutants as small as 0.3 microns. So, what goes inside, stays inside.

Senses and reports

Detects airborne particles and gases, displaying real-time air quality reports on the LCD and Dyson Link app.³

Hassle-free Auto mode

Automatically reacts to remove pollutants from the air, increasing airflow when it needs to.

Easy filter maintenance

Changing the HEPA+Carbon filter is quick and easy, with automatic notifications for each machine on the LCD screen and Dyson Link app.³

Air Multiplier™ technology

Delivers over 77 gallons per second of smooth, yet powerful airflow - circulating powerful air to purify a 2860ft³ space, equating to 290 sq ft.⁴

20% quieter

Acoustically engineered to reduce turbulence, so it's 20% quieter than the previous model. Perfect for peaceful working environments or hotel rooms.

Backwards airflow mode

Diverts airflow through the back of the machine. To purify the room, without feeling the airflow or cooling you.

Night mode

Perfect for peaceful working environments or hotel rooms. Monitors and purifies using the quietest settings along with a dimmed display.

1. Particle challenge by DEHS oil specified in EN1822 within a chamber specified in ASTM F3150. Tested in Max Mode at IBR US, for whole machine efficiency above 99.95%. 2. We challenged our purifier with airborne influenza A (H1N1 virus) at an independent lab. After 60 minutes in the chamber, at maximum fan speed, the airborne virus was reduced by 99%. Real-life efficacy may vary. 3. Requires device to run app, Wi-Fi or mobile data, Bluetooth 4.0 support, and iOS version 10 or Android version 5 (or above). Standard data and messaging rates may apply. The Bluetooth® word mark and logos are registered trademarks owned by the Bluetooth SIG, Inc. and any use of such marks by Dyson is under license. 4. In maximum setting. Tested for air projection (DTM80I) and purification coverage in a 2860ft³ room (TM-003771).
