## Quick start Inicio rápido

- 1 Plug in your hair dryer  
Enchufe su secador de pelo
- 2 Select your attachment  
Seleccione el accesorio
- 3 Dry and style  
Seque y peine

Connect an attachment to trigger the airflow and start drying or styling.  
Conecte un accesorio para activar el flujo de aire y comience a secar o peinar.

## Easy filter maintenance Fácil mantenimiento del filtro

To maintain optimal performance, clean your filter when prompted by the yellow flashing LED light, or if you feel reduced airflow. A white light flashes when the filter is absent. To learn how to clean your filter, visit [dyson.com/support](https://www.dyson.com/support).

Para mantener un funcionamiento óptimo, limpie el filtro cuando se lo indique la luz LED amarilla intermitente o si siente una reducción del flujo de aire. Se muestra un LED blanco cuando no hay un filtro colocado. Para obtener información sobre cómo limpiar el filtro, visite [dyson.com/support](https://www.dyson.com/support).

## Get to know your hair dryer Conozca su secadora de cabello

Choose from three airflow speeds and four precise temperature settings, including a Cold shot button.  
Elija entre tres velocidades de flujo de aire y cuatro ajustes de calor de temperatura, incluido un botón de golpe de frío.

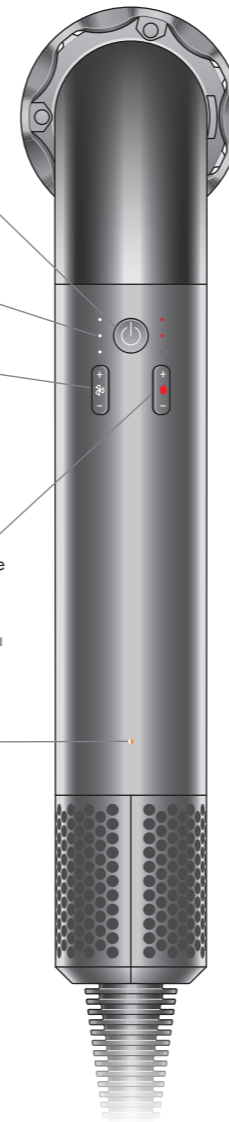

Power On/Off  
Encendido/apagado

LEDs

Airflow speed  
Three speed settings.  
Velocidad del flujo de aire  
Tres configuraciones de velocidad.

Temperature control  
Four precise temperature settings including Cold shot.  
Control de temperatura  
Cuatro ajustes precisos, incluido el golpe de frío.

Filter-clean LED  
Flashes when the filter needs cleaning.  
LED de limpieza del filtro  
Parpadea cuando es necesario limpiar el filtro.

## LEDs Indicadores LED

LED lights turn red to display heat settings, white for airflow settings and flash white-blue when there's no attachment fitted.  
Las luces LED parpadean en rojo para mostrar los ajustes de calor, blanco para los ajustes de flujo de aire y blanco-azul cuando no hay ningún accesorio colocado.

Cold shot  
Press and hold to deactivate the heat and set style.  
Golpe de frío  
Mantenga pulsado para desactivar el calor y fijar el peinado.

Removable filter  
Removable filter for cleaning. Your machine won't work without the filter attached.  
Filtro extraíble  
Filtro extraíble para limpieza. Su aparato no funcionará sin el filtro colocado.

Filter-clean LED  
Flashes when the filter needs cleaning.  
LED de limpieza del filtro  
Parpadea cuando es necesario limpiar el filtro.

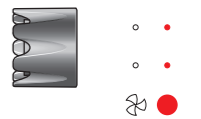

## Intelligent attachments Accesorios inteligentes

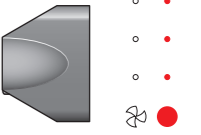

Your hairdryer instantly adapts to the intelligent attachments selected - each programmed to give you exactly the right temperature and airflow speed for optimal performance. You can then adjust your settings to match your preference.

Su secador de pelo se adapta instantáneamente a los accesorios inteligentes seleccionados, cada uno programado para brindarle exactamente la velocidad de flujo de aire con la temperatura correcta para un rendimiento óptimo. A continuación, puede ajustar su configuración para que coincida con sus preferencias.

Powerful air attachment  
Produces high-velocity airflow to dry hair quickly.  
Powerful air attachment  
Produce high-velocity airflow to dry hair quickly.

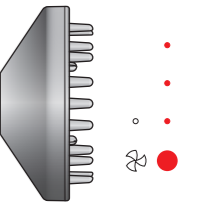

Pro concentrator  
Focuses air precisely where you need it.
